

APHRODITE-AIR GAME

About the Game

Aphrodite Air is an interactive **scenario-based game** designed to immerse participants in the dynamic world of aviation management.

This game challenges teams to make critical decisions under pressure while exploring key behavioral topics such as psychological safety, leadership, and effective team communication.

Through realistic scenarios, participants develop skills that foster trust, accountability, and collaboration—essential for thriving teams and safe organizations.

Objectives

- **Understand Psychological Safety:**

Recognize the importance of creating a safe environment where team members feel comfortable speaking up

- **Promote Open Communication:**

Encourage honest, judgment-free dialogue to address concerns and share ideas effectively.

- **Identify Leadership Behaviors:**

Explore leadership actions that build trust, empower teams, and foster psychological safety.

- **Balance Safety and Performance:**

Make decisions that prioritize team well-being while achieving organizational goals.

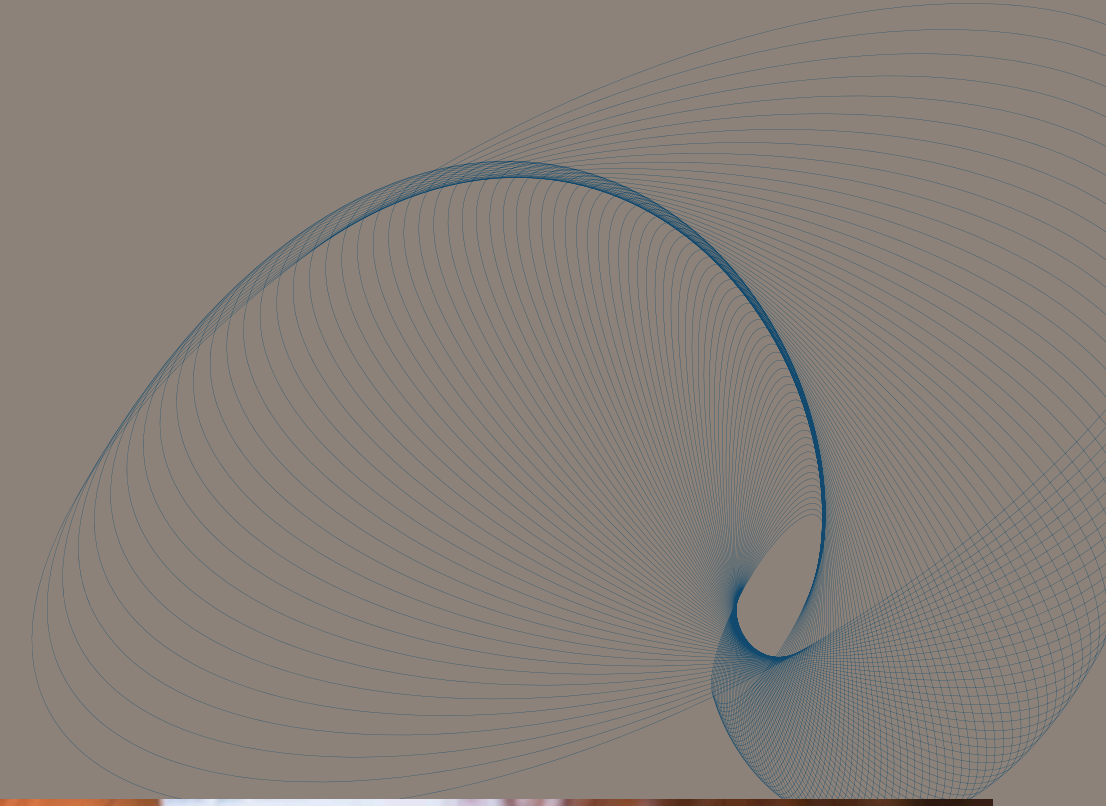

- **Reflect on Team Dynamics:**

Analyze how team behaviors and psychological safety influence decision-making and outcomes.
